PRESS RELEASE

World Capital partner of Green Logistics Expo 2018, first sustainable logistics Expo in Italy

GREEN LOGISTICS EXPO
SALONE INTERNAZIONALE DELLA LOGISTICA SOSTENIBILE

Milan, July 18th 2017 – **World Capital Group**, has been chosen as partner and real estate scientific representative of **Green Logistics Expo**, held at **Fiera di Padova**, **March 7-9, 2018** under the patronage of Assologistica.

The **International Sustainable Logistics Exhibition,** promoted by Fiera di Padova and Interporto Padova, has dedicated a pavilion, with 3.000 square meters, to Industrial and Logistics Real Estate called:

*Logistic **RE**solution*
Logistics real estate pavilion

"When we have been contacted by the organization committee of the event demonstrating their interest in promoting Logistics Real Estate – says **Marco Clerici**, Managing Director, World Capital Real Estate Group – we have immediately *embraced the idea to share our expertise in the sector by organizing the event. Together we realized the idea of a pavilion with "real/virtual" path passing within the Logistics Real Estate chain. A chain made by all the logistics real estate players, involved in the process from its construction to its end users, expressed by **Re**solution.*
We are very proud of being engaged in such an innovative project, strongly seek by the market for a longtime, and look forward to experience this event with you."

Green Logistics Expo brings to Italy, for **the first time,** a B2B fair with the leaders in **intermodal rail transport**, freight transport, manufacturing logistics and ports, **E-Commerce** and urban governance. Three days event in support of economic growth and quality of life held in a place where technological innovation and business opportunities will meet the new scenarios of sustainable logistics. A place where future scenarios of the supply chain will be manifest to institutions and enterprises.

*"We believe that the Logistic **RE**solution pavilion – declares **Luca Griggio** , CEO of Geo Spa,* Fiera di Padova Organization– *will be the added value to an event unique of its kind. The simple fact that any activities including those related to logistics sector, is being held in "a real space" is the main reason*

of dedicating a right dimension to the real estate side of logistics sector, together with ***World Capital****, we have organized the pavilion in three macro areas;* ***services, structural and systems****.*

The pavilion *Logistic* **RE***solution*, will host companies belonging to the following business areas:

SERVICES	STRUCTURAL	SYSTEM
Technician	Prefabricated component	Fire Prevention
Construction enterprises	Covering	Electrical
Developer	Doors and windows	Lighting
	Pavement	Lift
	Shelves	Alarm and Video Surveillance
		Automation
		Photovoltaic
		Renewal Energy
